**School Bus Protocols for Riders**

- ALL riders must wear a face mask fully covering the mouth and nose. No exceptions.
- All windows must remain open for maximum air flow.
- Parents shall stay with their student until they physically board the bus. Drivers will have the right to deny a rider if any of the above is not adhered to.

**School Bus Protocols for Drivers**

- All drivers shall be screened upon arrival each morning. A health screening shall be completed verifying a driver’s health readiness along with confirming the driver has had no contact with any person known to have COVID-19.
- All drivers shall wear face masks provided by Tumbleweed Transportation fully covering the mouth and nose. Drivers will also be issued a face shield, however, if the driver feels this impedes their vision then they will not be required to wear the shield. Gloves will also be made available to the drivers if they wish to wear them.

**Daily Cleaning Protocols for the School Bus**

- After the morning bus route each weekday, all buses shall return to their parking location for a mandatory cleaning. This cleaning will utilize an electrostatic spraying system from EvaClean which is CDC approved for COVID-19 and use in educational settings. Check out this video to see the product’s application:
